ESSENTIALS

Products that reinforce and empower
ORGANIZATIONAL goals

accessories that **SUPPORT & STRENGTHEN**

Within the workplace, every piece of furniture plays a role in empowering employees to do their work productively and efficiently—from workstations to seating, all the way down to the accessories often taken for granted. Imagine a world without designated spots for disposing trash, or having no place to hang a coat or bag! When you're furnishing an office space, don't forget the details. They go a long way in creating a welcoming and functional space for all.

DESIGNED for functionality

You don't have to sacrifice form for function. Most commercial-quality accessories are designed and engineered to the highest of standards by some of the most progressive manufacturers in the industry. Inspired by modern design and innovation, each component—from planters to visual boards to coat trees—is carefully crafted to deliver a superior workplace experience.

versatile **OPTIONS**

Facility essentials, like recycling centers and visual boards, are highly adaptable and can be customized to meet your unique needs.

The most minute details of a workspace can speak volumes to employees, guests, and visitors. By utilizing custom features like multilingual labels and custom colors that match your organization's branding, those small, but thoughtful, touches can amplify the aesthetics of the building and enhance the workplace experience.

No matter the size of the footprint, there is a solution that will work for each individual need, and we can help!

THE QUIETEST performers stand tall

A space is complete when it's fully functional and fully inspired. High-design ancillary products like planters, waste receptacles, and coat storage products are finishing touches, bringing the utility and artful design that make a space truly complete and make a statement. Consider each space in your facility, from private executive offices to large common gathering areas, and truly think through its day-to-day usability. Make a plan for the number of people using the space and how they'll use it to its greatest extent. Then, fill in the rest with the important details that are often overlooked but much appreciated!
